

“Understand” Science Devotionals

Devotional #1 “Fun Fly Stick Devotion” – 20 minutes

“Be Ye Filled!” – This amazing science illustration powerfully communicates how we can trust in the power of the Holy Spirit to fill our lives and lead us to accomplish His plans! Kids and leaders are awed and wonder just how this intriguing Science Devotion defies gravity. Through the power of electrostatic repulsion, an unforgettable spiritual analogy is brought beautifully to life. This Science Devotion focuses upon 2nd Peter 1:20-21 & Acts 4:12

Each small group of 8-10 children will need:

- The Fun Fly Stick * (Item is reused.)

* = Indicates special item to be purchased

Tips for Success:

Consider doing this demonstration to a large group of multiple small groups as opposed to buying a Fun Fly Stick for each individual small group.

Allow students to handle the wand and “move” the Mylar tinsel through the power of electrostatic repulsion.

High humidity may negatively affect the Fun Fly Stick demonstration.

Ready –

#1 – Getting Organized: To successfully organize your devotional materials, consider purchasing and gathering all the needed materials for the Science Devotional lessons and placing all 10 items into a plastic tub. Allow your small group leaders to check out a tub of the 10 science items, preview the contents, and become familiar with how each Science Devotional lesson works prior to the week of your program.

#2 – Science Devotional Items to Purchase – Each Science Devotional requires special items you’ll need to order.
