

“The Pressure Pullers” - This science devotional about Romans 8:38-39 and John 10:27-30 will stick in the minds of students for a lifetime! The powerfully serious message that nothing...absolutely nothing can separate us from the love of God in Christ Jesus is communicated through a totally hilarious illustration. What a concept to end this powerful week!

Each small group of 8-10 children will need:

- 1 Pressure Puller* (Item can be reused.)
- Individual words from Romans 8:38-39 written on separate index cards

** = Indicates special item to be purchased*

Tips for Success: (1) In addition to the words from Romans 8, consider things that might be applicable to students in your context. You may add a card that says “Divorce.” Can divorce separate from the love of God? No way! (2) Have students brainstorm ideas of things that some people might think could separate from them from God’s love, and let them create their own cards to test against the pressure pullers!
