## Science-Inspired, Christ-Focused, VBS Program

For over 10 years, we have used three different online companies to order science supplies for all our needs. When we created the Science VBS programs, we decided to provide ordering information so you could order direct from the supplier, cut out the middle man, and get the lowest price possible.

Unfortunately, two companies have very unexpectedly gone out of business in recent years.

Below are options for ordering products that are NO LONGER available through the venues we originally recommended in Elements of Trust Science Devotions and Science Projects.

Please don't hesitate to reach out to [josh@kidminscience.com](mailto:josh@kidminscience.com) with any questions.

The slime kits are no longer available online, but you can purchase this 4% Polyvinyl Alcohol Solution which is the exact ingredient used in the Steve Spangler Science Kits.

Procedure:

- Measure 2 tsp of polyvinyl solution into a cup.
- Add ¼ teaspoon of Borax solution. Mix well with a wooden stick.

- Working on waxed paper, roll the slime into a ball.
