

“Trust” Science Devotionals

Devotional #2 “Nail Stacking Devotion” – 20 minutes

“Wait! This is the Plan?” - A hilarious puzzle puts kids to the test – and they will just plain fail! Can this puzzle even be solved?! A seemingly impossible solution leads to a simple discussion how about God’s plan may not seem obvious. Sometimes God’s plan may seem confusing but His plan is perfect. Jesus being killed on the cross was God’s perfect plan. This Science Devotion focuses on Acts 2:23-24.

Each small group of 8-10 children will need:

- 15 nails with “nail heads”
- Large board to pound in one nail upright

** = Indicates special item to be purchased*

Tips for Success:

Consider getting each student in your program their own set of nails. This powerful demonstration could easily be taken home for a powerful testimony to parents and siblings.

Consider buying HUGE nails that are used to secure thick treated wooden posts. The huge nails are a real treat for young students. These nails are expensive, so consider one set for large group demonstration!

Ready –

#1 – Getting Organized: To successfully organize your devotional materials, consider purchasing and gathering all the needed materials for the Science Devotional lessons and placing all 10 items into a plastic tub. Allow your small group leaders to check out a tub of the 10 science items, preview the contents, and become familiar with how each Science Devotional lesson works prior to the week of your program.

#2 – Science Devotional Items to Purchase – Each Science Devotional requires special items you’ll need to order.
